For Immediate Release

Geometric to showcase GeomCaliper® and CAMWorks® at Alucast Focus 2009

Mumbai, India, September 1, 2009: [Geometric Limited](#) (BSE: 532312, NSE: GEOMETRIC), a leader in Product Lifecycle Management (PLM), Engineering services and Offshore Product Development (OPD) solutions and technologies, will showcase its leading products - [CAMWorks®](#) and [GeomCaliper®](#) at Alucast Focus 2009 to be held in Pune, India on September 5-6, 2009.

[GeomCaliper](#), an automated and easy-to-use thickness analyzer is used to optimize the thickness and weight of die-cast parts, while [CAMWorks](#) provides the environment to productively create optimized NC codes for machining the parts. Geometric will demonstrate these products on September 5, 2009 in Session I scheduled from 11:00 a.m. to 01:00 p.m. The event will include hands-on sessions with the products, and also highlight the benefits experienced by existing users.

The 'Product Conference' session of Alucast Focus 2009 will also have a paper presentation from Geometric on 'How Tooling and Casting requirements can be addressed at Design Stage' by Product Manager, Mr. Bhaskar Sinha.

Alucast FOCUS 2009 is an event organized by Aluminium Casters' Association of India. The event exclusively focuses on product development for casting components. For more information about Alucast 2009, please visit <http://www.alucast.co.in/metalseminar.html>

About CAMWorks

CAMWorks is the first SolidWorks® certified Gold CAM product and the first CAM solution to offer knowledge-based feature recognition and associative machining capabilities, seamlessly integrated into the SolidWorks 3D mechanical design software. More information on CAMWorks is available at www.camworks.com

About GeomCaliper

GeomCaliper is an innovative tool that facilitates measurement and checking of wall thickness of 3D CAD models. It accelerates the design review process for manufacturability, enabling faster prototyping and production of designs, thus reducing the overall design cycle time. Unlike other traditional measurement methods, GeomCaliper is fast, accurate and easy to use. For further information about GeomCaliper visit: <http://geomcaliper.geometricglobal.com>

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.98 billion (US Dollars 129.47 million) for the year ended March 2009. It employs close to 3000 people across 10 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
