Geometric to display CAMWorks for 5-axis machining at South-Tec 2009

Scottsdale, Arizona, September 23, 2009: Geometric Technologies, Inc., a subsidiary of [Geometric Limited](#) and an industry leader in developing advanced manufacturing software, will showcase its leading product - [CAMWorks](#)[®] at Booth # 17052 at [South-Tec 2009](#) from October 6 - 8, 2009 in Charlotte, North Carolina.

CAMWorks 2009 has over 100 user driven features and enhancements, to enable users to program parts faster and more easily. In addition, it provides a significant number of new machining options to further strengthen CAMWorks' existing manufacturing capabilities. Certified CAMWorks technicians will demonstrate 5 axis machining related functionalities, and show videos highlighting the various features executed on machine parts by using 5-axis machining, at the event.

"Our focus will be to explain users how CAMWorks can improve productivity using the latest technologies and machining strategies to gain a competitive edge during the post-recession period" Channel Sales Manager – Donnie Dorsey, Geometric Technologies Inc.

South-Tec Advanced Productivity Exposition is the largest machine tool and manufacturing event dedicated to machine tool and metalworking technologies industries in southern USA. The event is represented by several key industries including aerospace, automotive, consumer goods, military, and recreational vehicles. For more information about South-Tec, please visit <http://www.sme.org/cgi-bin/get-event.pl?--001790--home--SME->

About CAMWorks

CAMWorks is the first SolidWorks[®] certified Gold CAM software product and the first CAM solution to offer knowledge-based feature recognition and associative machining capabilities, seamlessly integrated into the SolidWorks 3D mechanical design software. For information on CAMWorks, please visit www.camworks.com

About Geometric

Geometric is a specialist in the domain of engineering solutions, services and technologies. Its portfolio of Global Engineering services and Digital Technology solutions for Product Lifecycle Management (PLM) enables companies to formulate, implement, and execute global engineering and manufacturing strategies aimed at achieving greater efficiencies in the product realization lifecycle.

Headquartered in Mumbai, India, Geometric was incorporated in 1994 and is listed on the Bombay and National Stock Exchanges. The company recorded consolidated revenues of Rupees 5.98 billion (US Dollars 129.47 million) for the year ended March 2009. It employs close to 3000 people across 10 global delivery locations in the US, France, Romania, India, and China. Geometric is assessed at SEI CMMI Level 5 for its software services and ISO 9001:2000 certified for engineering operations.

Geometric's Desktop Products and Technologies (DPT) business unit develops cutting-edge point productivity

solutions that enhance design and improve manufacturing operations. The end-user products from Geometric include CAMWorks®, eDrawings® Publisher, DFMPPro, GeomCaliper® and 3DPaintBrush™. The key technologies from Geometric are NestLib®, Feature Recognition (FR), GeomDiff and 3DSearchIT®. Geometric licenses these technologies to OEM partners and also designs and implements customized process solutions using these technologies for industrial customers.
